Emerging Clinical Issues in Infectious Diseases 2009
Infectious Disease Association of California
24th Annual Spring Symposium

May 2-3, 2009
Westin Hotel, Long Beach, CA

This activity has been approved for AMA PRA Category 1 Credit™
Emerging Clinical Issues in Infectious Diseases 2009

Saturday, May 2, 2009

8:00 AM Registration Opens
Continental Breakfast
Industry Exhibits

9:00 Opening Remarks
Barry Statner, M.D.
President, IDAC

9:10 How HIV Makes You Sick
Michael M. Lederman, M.D.
Scott R. Inkley Professor of Medicine
Professor of Biomedical Ethics,
Pathology, Microbiology and
Molecular Biology
Director, Center for AIDS Research
Case Western Reserve University,
School of Medicine
Cleveland, OH

Objective: Attendees will be able
to understand the current concepts
regarding pathogenesis of immune
deficiency in HIV infection.

10:00 Morning Break
Industry Exhibits

10:20 Skin Infections and Infestations
Noah Craft, M.D., Ph.D.
Assistant Professor, Divisions of
Dermatology and Adult Infectious
diseases
Associate Program Director,
Dermatology
Harbor-UCLA Medical Center
David Geffen School of Medicine at
UCLA
Los Angeles Biomedical Research
Institute
Torrance, CA

Objective: Attendees will be able
to recognize and treat some of the
most common skin infections and
infestations, including tropical
dermatology bacterial infections.

11:10 Fungal Infections in Immuno-
Compromised Patients
Pranatharthi H. Chandrasekar, M.D.
Department of Internal Medicine,
Harbor University Hospital
Professor of Medicine, Division of
Infectious Disease
Wayne State University
Detroit, MI

Objective: Attendees will be able
(1) to appreciate the changes in epidemiology of invasive fungal infections in cancer/transplant, skin parasites, ectoparasites, and populations; (2) to appreciate newer non-invasive diagnostic methodologies in invasive fungal infections; and (3) to appreciate appropriate use of newer antifungal drugs in the management of invasive fungal infections.

Noon Lunch

Industry Exhibits

12:30 PM IDAC Business Meeting &
Committee Reports

1:30 Leland Rickman Memorial Lecture
Update on Septis Management
David A. Talan, M.D.
Chairman, Department of Emergency
Medicine
Professor, Division of Infectious
Diseases
Olive View–UCLA Medical Center
Sylmar, CA

Objective: Attendees will be able
(1) to identify new approaches and
controversies in sepsis management;
(2) to discuss early goal-directed
therapy, activated protein C,
steroids, and insulin; (3) to under-
stand empirical antibiotic therapy
and timeliness; and (4) to under-
stand source control approaches.

Session Ends

2:30 Symposium Reception &
Banquet
Aquarium of the Pacific
Shark Lagoon

REGISTRATION
Complete the enclosed Registration Form to pre-register for the symposium, and mail it to the IDAC office. Pre-registration forms and checks must be received by April 24, 2009. Sorry, we do not accept credit card payment for symposium registration.

2009 IDAC Members may pre-register for FREE, which includes morning receptions, sessions, buffet lunch, breaks, reception, and banquet. Member on-site registration is $20, though banquet may not be available. IDAC membership is open to all M.D.s, Pharm.D.s, and Ph.D.s with an interest in Infectious Diseases, and qualifying non-members may join by adding dues to the Registration Form.

Nonmembers may register for symposium sessions for both days or Sunday only (banquet is extra). See Registration Form for pre-registration and on-site registration fees.

CANCELLATION POLICY
Symposium registration and banquet fees will be refunded (minus $10 service fee), if written notification is received by Friday, April 24, 2009.

May 2-3, 2009 • Westin Hotel, Long Beach, CA

Sunday, May 3, 2009

8:30 AM New Molecular Diagnostics for
Infection Control
Tobi Karchmer, M.D.
Medical Director
BD Diagnostics – GeneOhm
San Diego, CA

Objective: Attendees will be able
to identify new molecular labora-
tory tests that may have impact on
the practice of infection control and
antimicrobial stewardship.

9:00 Continental Breakfast

9:50 Morning Break

10:10 Hospital-Associated Infections
(HAI) Reporting Regulations in
California
Raymond Chinn, M.D.
Hospital Epidemiologist
Sharp Memorial Hospital
San Diego, CA

Objective: Attendees will learn
about new California regulations
requiring public reporting of hospi-
tal-associated infections.

11:15 Session Ends

10:20 Public Reporting of Hospital-
Associated Infections (HAI):
Learned from New York
Michael L. Tapper, M.D.
Hospital Epidemiologist
Director, Division of Infectious
Diseases
Lenox Hill Hospital
New York, NY

Objective: Attendees will be able
(1) to recognize the goals,
controversies, and unintended
consequences of public reporting of
healthcare-associated infections; (2)
identify organizations and govern-
mental agencies behind the public
reporting movement; and (3) to
participate in development of poli-
cies and procedures regarding HAI
reporting.
